Advance Java:- Hibernate , Spring Boot, JSP & Servlet,Spring MVC
Technologies : - HTML, CSS ,Bootstrap, SQL ,Typescript, JS & Angular.
Database: - MySQL .
Tools : - Eclipse IDE, VScode.

PROJECTS

Faculty Relationship Manager

Developing a web application with help of Spring,Spring Boot , Hibernate and Mysql
database. The journey is about how to create a backend web application.Faculty
Relationship Manager will keep track of all the . Adding new member to the
faculties,editing their information and deleting them when needed.

Angular Crud Operations

"Developed a dynamic Angular CRUD application that enables users to Create, Read,
Update, and Delete data seamlessly. Implemented user-friendly interfaces for data
input and retrieval, ensuring a smooth user experience while demonstrating
proficiency in Angular frameworks and front-end development."

Angular Todo list

Designed and implemented a comprehensive web application project utilizing Angular
for user authentication, registration, and profile management. The project includes
secure user registration and login functionalities with token-based authentication,
enabling users to create and edit their profiles. Additionally, integrated a feature for
user account deletion, ensuring data privacy and security.
